

## BIRD'S NEST

Look around you and listen when you are outside. The birds are singing the happy songs of spring.

They will begin building their nests and laying their eggs very soon!

You can make your own bird's nest that you can eat!

You will need some frosting (whatever flavor you prefer) and some small pretzel rods.

Build a bird's nest by putting frosting on pretzels and making a circular shape on a piece of paper. Fill in the center of your circle with more frosting and pretzels.

Now carefully begin building upwards, moving around the circle with each layer. Be sure to put frosting on each pretzel before you put it in place.

When your nest is complete, put some jelly beans inside. They will look like little eggs!
