

FROOT LOOPS RAINBOW

It's Spring! Watch for the rainbows!

Using Fruit Loops cereal, you can create a rainbow here on your paper.

Begin by drawing a straight line about 5½ inches long on your paper.

Next, glue a purple Froot Loop on your paper on the center of the line.

Now, beginning on the line to the left of the purple Froot Loop, glue blue Froot Loops around the purple one, continuing to the line on the right of the Froot Loop.

Repeat with green Froot Loops.

Repeat with yellow Froot Loops.

Repeat with orange Froot Loops.

Repeat with red Froot Loops.

You have made your own rainbow!

To make an edible rainbow, replace the glue with white frosting.
