

GEORGE WASHINGTON'S TRICORN HAT

What you need:

3 Paper Plates

Stapler

Red, White and Blue Paint

Yellow Construction Paper

Scissors

Fold each paper plate in half and staple at the top.

Place two paper plates together matching up the curve of the plates. Staple the two plates together at one corner. Spread the plates apart.

Match one corner of the third plate to a corner of one of the plates you already stapled together.

Staple the remaining corners together. You should have made a triangular shape with the plates. The curves of the plates will be the top of the hat, the flat, folded part is the base.

Using red, white and blue paints, decorate your hat. Perhaps cut out yellow or gold stars and glue them to the hat when it has dried.

You now have a patriotic tricorn hat!
