

PAPER PLATE SPIRAL SNAKE

To make this snake, you will need a paper plate. Paint or color both sides of the plate green or brown (or any other color you might like). Set the plate aside to dry.

Color and cut out the head and tail shapes below.

When your plate is dry, carefully cut the plate in a spiral moving from the outside edge to the center of the snake.

The outer edge that you began at is the snake's tail. Glue on the tail.

The finishing point is the snake's head. Glue on the head.

Make a small hole in the tail and tie a piece of string on to make a hanger. Hold the snake by its hanger and it will spiral downward.
