

BOO!

MATERIALS:
Hole Punch
Yarn or String
Stuffing

Make a cute stuffed ghost for Halloween. Cut out two of the ghost shapes below. Put the two shapes together and punch holes on the black dots. Lace a piece of yarn or string through the holes as if you were sewing the pieces together. Before you finish going all the way around the ghost, stuff it with crumpled newspaper, toilet paper, tissues or cotton balls. After the ghost is stuffed, finish sewing the remaining way around the ghost, ending in the same spot you began in. Tie a knot to prevent your lacing from coming out. Give the ghost some eyes and a mouth.
