

HEART WREATH

WHAT YOU NEED:

Paper Plate
Scissors
Red, Pink, White, and Purple Construction Paper
Glue
Conversation Hearts
Hole Punch
String/Yarn

To make a heart wreath, first cut the center out of a paper plate. This is the wreath shape.

Next, cut several different sized hearts from red, pink, white and light purple construction paper.

Glue the hearts all over your wreath shape.

For a finishing touch, glue candy conversation hearts to the wreath. These are the candies that have messages on them like "Hug Me" and "Be Mine".

Punch a hole in the top of your wreath and add tie a loop of string or yarn through the hole to make a hanger.
